IMPROVING YOUR COMFORT ZONE

***The Astro Sarum has been designed specifically to provide bariatric users with a modern, sturdy and attractive seating solution.***

**They deliver incredible comfort with enhanced functionality, whilst offering more support adjustments than any other bariatric chair on the market today.**

**Manufactured in Britain to the highest standard of design, the Astro Sarum offers users variable backrest and pressure relief.**

**They have multi action, Tilt-in-Space, backrest recline, leg rest elevation and rise to stand.**

**The Sarum doubles as a pressure relief chair, redistributing body weight over a larger surface area to minimise stress on pressure points. It has an interchangeable backrest support and patented adjustable seat depth and width options.**
